

ROLE PROFILE AND RESPONSIBILITY

Our Vision

To be recognised and respected as the UK's leading rainscreen systems supplier and metal fabrications.

Our Mission

To be the UK's leading manufacturer of rainscreen systems and metal fabrications, offering the most up to date product design with a focus on sustainability, cost effectiveness, ease of installation and exceptional quality. We strive to provide a first-class customer service, focusing on becoming a trusted and valued member of the supply chain for all of our customers, offering a façade solution for each and every project.

Our Goals

- *To be preferred supplier by our customers, leading in expertise, service, innovation, quality, capability, and insight.*
- *To grow together and drive organic growth and sustainably delivered products*
- *To be ranked as one of the UK's Best Workplaces*
- *To be a socially and environmentally responsible company which makes a positive difference to people and communities*

JOB:	Full-time permanent position
JOB TITLE:	Draughtsperson (Rainscreen Cladding, Aluminium Curtainwall, Windows and Doors)
LOCATION:	Cramlington
SALARY:	Negotiable, depending on experience
HOURS:	8am to 5pm - Monday to Thursday 8am to 3:30pm - Friday

About the Role:

- Generally, the role will involve creating and developing comprehensive drawings/schedules for the production and installation of Rainscreen Cladding, Curtainwall, Windows and Doors.
- Ensure the work is completed to the agreed timescale, meets our client's requirements and is in line with our quotation. Any variations are to be communicated to our Estimating Department so they can be captured in a timely manner.
- Issue requests for information and technical submission.
- Review and interpret our client's design drawings.
- Attend site for DTM meetings and our Shildon factory for handovers, as required.
- Liaise with the Production department and shop floor to resolve any production queries.
- Issue regular updates to the Design Manager and liaise with our Production Department, Buyer and our Clients.
- There will be an opportunity to get involved in R&D projects, further training and growth within the company.
- The role will involve developing designs that meet design intent, performance, specification, and budgetary requirements

Ideal Candidate:

- A minimum of at least 5 year's experience in a similar role.
- Will have a good understanding of fabrication methods and detailing of Rainscreen Cladding or Aluminium Glazed Systems.
- Will be capable of
 - Producing technical drawings to a good standard and in a timely manner.
 - Producing accurate drawings by working methodically and checking the accuracy of their own work.
 - Skilled in AutoCAD LT and Microsoft Office. Experience with Solid works, Logikal, Tech Design or Schucal would be advantageous, but training will be provided.
 - Excellent time management, problem-solving skills, ability to quickly learn, willingness to ask and the ability to communicate well with others, in a respectful manner.
 - 3d Visualization (thinking in 3d).
 - Being proactive in finding solutions to issues.
 - Full UK driving licence.

About the company:

- The company design and manufactures a comprehensive range of Rainscreen, Curtainwall, Windows, Doors and structural glazing.
- Will shortly be coming up to its 25 years anniversary and has enjoyed continued growth and success.
